Project Title: McMullin On-Farm Flood Capture Expansion Project

Project Applicant: McMullin Area Groundwater Sustainability Agency

Project Location (include county): Raisin City, Fresno County, CA

Project Description:

Flood Capture and Recharge Projects are located within the McMullin Area Groundwater Sustainability Agency (MAGSA) region. This project is intended to divert available flood water and stormwater flows from the Kings River that are currently released downstream of the James Weir. These diverted waters will be used for direct groundwater recharge, or for distribution to participating farmlands for in lieu recharge or for direct groundwater recharge.

This is to advise that the McMullin Area Groundwater Sustainability Agency has approved the above (Lead Agency or Responsible Agency)

described project on July 6, 2022 and has made the following determinations regarding the above described project.

- 1. The project will not have a significant effect on the environment.
2. An Environmental Impact Report was prepared for this project pursuant to the provisions of CEQA. A Negative Declaration was prepared for this project pursuant to the provisions of CEQA.
3. Mitigation measures were made a condition of the approval of the project.
4. A mitigation reporting or monitoring plan was adopted for this project.
5. A statement of Overriding Considerations was adopted for this project.
6. Findings were made pursuant to the provisions of CEQA.

This is to certify that the final EIR with comments and responses and record of project approval, or the negative Declaration, is available to the General Public at:
